

June 16, 1931.

Mr. B. O. Colton, Jr.,
Myton, Utah.

Dear Mr. Colton:

RE: UINTAH DIST.

Thank you for your full letter of June 12 with reference to complaint of Mr. C. A. Thompson. As I explained to Mr. Henderson it is my duty to give consideration to all complaints but this by no means implies that that I give any particular credence to such complaints until investigated.

I notice your letter head designates you as water commissioner and I would again call your attention to my letter of May 6 which indicated that this office was to be in no way involved with any delegation of authority. I wish matters in Uintah Basin to work out as harmoniously as possible but neither the Federal Court or the State Engineer must by even implication be involved in the duties which you are performing.

Yours very truly,

State Engineer.
